

Job Title: WordPress Theme Developer

Job Summary: We are seeking a skilled WordPress Theme Developer to join our team. In this role, your primary responsibility will be converting Figma or occasionally PDF files into HTML/CSS and developing them into fully functional WordPress themes. It is essential that these websites are responsive, and you will be expected to utilize frameworks such as Bootstrap and Tailwind CSS. Additionally, proficiency in creating custom post types, utilizing WP_Query, and developing child themes and page templates is required.

Key Responsibilities:

- Develop and maintain WordPress themes and websites.
- Convert Figma or PDF files into responsive HTML/CSS.
- Implement Bootstrap and Tailwind CSS frameworks.
- Create custom post types and utilize WP_Query.
- Develop child themes and page templates.

Qualifications:

No specific educational requirements. Instead, please provide a list of websites you have created, showcasing your skills and experience.

Preferred Skills:

- Strong proficiency in PHP, SQL, and WordPress querying.
- Expertise in Bootstrap, HTML, CSS3, jQuery, and JavaScript.
- Knowledge of core PHP and other frameworks like Laravel is a bonus.

Work Environment:

Our company is remote-first, allowing for a flexible working schedule. You will have the freedom to complete tasks based on pre-aligned timelines, providing a comfortable and adaptable work environment.

Application Process:

Please email your portfolio to prasanth@theappender.com, along with a brief introduction about yourself. No specific degree or educational qualifications are necessary; we are primarily interested in your practical experience and previous work.

We look forward to reviewing your portfolio and getting to know more about your expertise in WordPress theme development!
